## NLIS database maintenance schedule

November 2009

Alternate Thursdays, 6pm-7pm

2010

National Livestock Identification System (NLIS) Ltd manages the NLIS database on behalf of SAFEMEAT, the partnership between the industry and government.

The NLIS database is not available on **alternate Thursday evenings**, usually between **6pm-7pm (Sydney time)**. At these times, users cannot log on to NLIS directly, nor upload files to NLIS via specialised software packages, like those used by many abattoirs and saleyards.

NLIS Ltd apologises for any inconvenience but fortnightly maintenance is necessary so that the NLIS database performs effectively for all users.

Note: NLIS Ltd reserves the right to vary dates and times but if possible, abattoirs and saleyards will be notified of any changes by email at least one day ahead.
